Open to opportunities

Hi, I'm Santhakumar. I build PLC logic that keeps industry running.

EEE graduate and automation engineer from Chennai, working across 10+ PLC platforms with strong electrical fundamentals.

About

I'm an Electrical & Electronics Engineering graduate from St. Joseph's Institute of Technology, Chennai, building a career as a PLC Programmer and Automation Engineer. I trained in PLC and SCADA at IPCS Global Academy and I'm comfortable on 10+ PLC platforms and have a strong foundation in electrical systems. I design control logic for real industrial problems, from sequencing and interlocks to analog scaling and HMI screens.

PLC platforms	Automation projects	Internships	SCADA platforms

Skills

PLC Programming

Ladder logic, state machines, timers, counters, latch/unlatch, interlocks, comparators.

Allen-Bradley Siemens Delta Schneider Zelio Mitsubishi Omron Honeywell Fanuc ABB

SCADA & HMI

Operator screens, monitoring and control interfaces for process and machine automation.

AVEVA InTouch (Wonderware)

Siemens WinCC

Drives & Analog

VFD setup and analog I/O handling with scaling for sensors and actuators.

Allen-Bradley VFD Delta VFD

DVP04AD / DVP02DA ADC/SCP scaling

Electrical Systems

Strong fundamentals in electrical systems from my EEE background, supporting reliable control design.

SR latches Motor types

Passive/active components

Projects

Automatic Tank Filling

Level-based fill control with sensors, pump interlocks and start/stop logic.

Ladder Interlocks

Traffic Light Control

Timer-driven multi-phase signal sequencing built during PLC training.

TON/TOF Sequencing

Washing Machine Sequencer

Multi-stage cycle control: fill, wash, rinse and spin with timed transitions.

State machine Timers

Car Parking System

Slot counting and entry/exit control using counters and status indication.

CTU/CTD Counters

Crusher Plant Control

Sequential start/stop of conveyors and crushers with safe interlocked ordering.

Sequential control Interlocks

Batch Mixing & Reaction

Batch process control for mixing and reaction stages, built in Zelio Soft.

Zelio Soft Batch control

Experience & Education

Automation Engineer
Creating PLC logic for industry problems

Internship — LitzTech

Internship — Hanon Systems

Internship — Relicell Energy Storage

PLC & SCADA Training — IPCS Global Academy
Delta DVP, Allen-Bradley, Siemens TIA Portal, Wonderware InTouch

B.E. Electrical & Electronics Engineering — St. Joseph's Institute of Technology
Chennai, India
